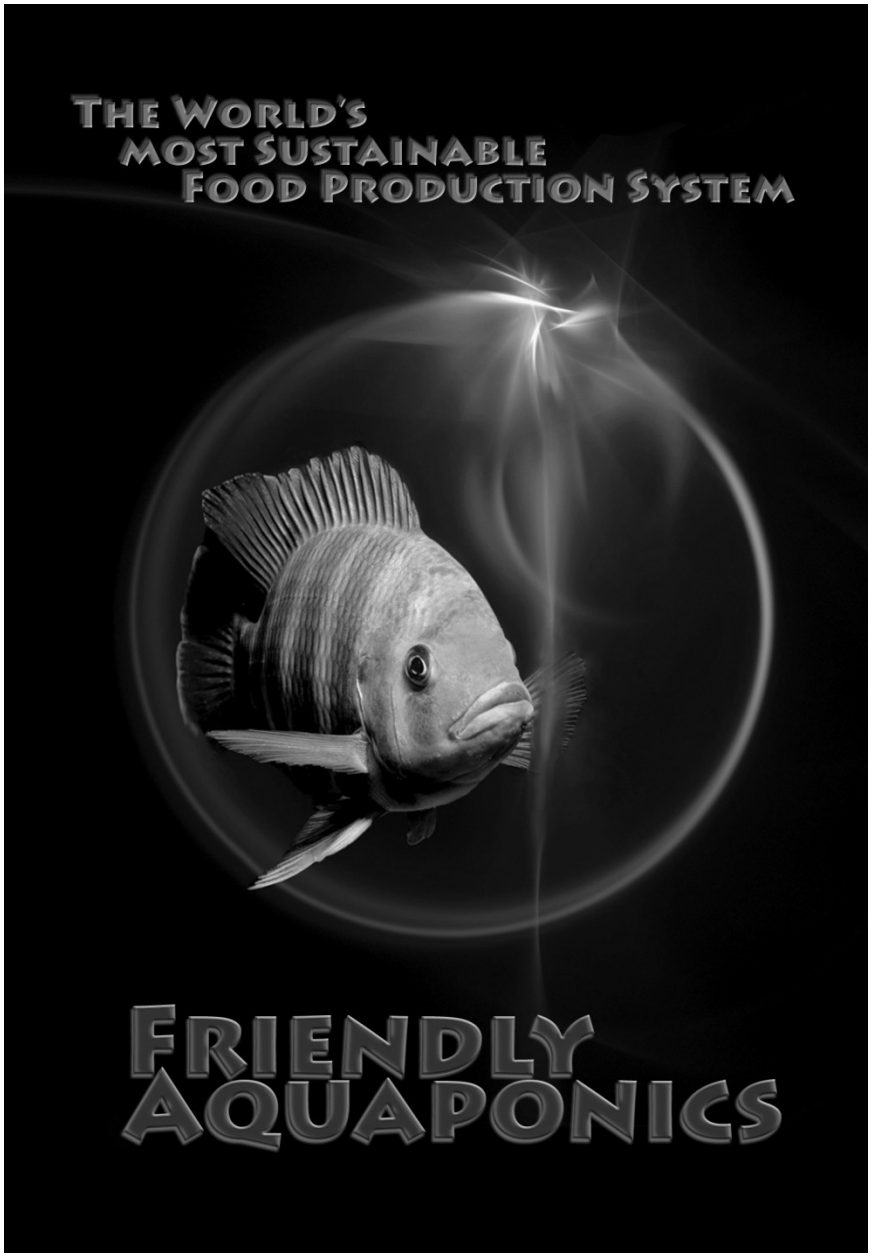
Friendly Aquaponics, Inc.



2015 Outdoor MicroSystems Do-It-Yourself Manual

For 64 & 128 sq. ft. Aquaponics Systems

 Version: 1.15.1

Friendly Aquaponics, Inc., PO Box 1196, Honokaa, Hawaii 96727

Table of Contents

Introduction Page 5

Glossary of Terms and Definitions Page 10

I. Our Micro-System Overview and History

A. How To Have Fun With Aquaponics Page 12
1. System Features
2. System Benefits
3. Energy Implications
4. Quick Summary of Aquaponics' Applications

B. A Short Overview Of Aquaponics Page 18
1. How It Works
2. Types of Aquaponics Systems

II. Components and System Processes Page 21

A. Aquaponics Technology
1. The Parts of Your Micro System
2. System Sizing, Proportions, and General Considerations
3. Value Engineering: Reducing Costs Using Alternatives
4. Air and Water Pumps
5. Electrical Requirements and Alternate Energy Components

B. System Processes and Chemistry Page 28
1. Sequence and Flow
2. What Happens In The Fish Tank
3. What Happens In the Hydroponic Troughs

C. Water Quality Page 29
1. City Water, Ag Water, Stream Water, and Bad Water
2. Measurement Methods
3. High and Low Limits For Dissolved Oxygen, Ammonia, pH, and Iron
4. Additions
5. System Overflow

III. System Operation and Maintenance Page 32

A. System Startup
1. Verify Water Quality And Fill Her Up
2. Add Fish
3. How To Kill Your Fish When Hauling
4. Inoculate: The Five-Day Startup
5. Helping Your Fish Survive The Nitrite Spike

B. Daily Page 39
1. Feeding/Observation
2. Sampling/Measurements/Recordkeeping
3. Checking/Cleaning

C. Weekly Page 41
1. Harvesting Fish/Restocking/Carrying Capacity of System
2. Harvesting Vegetables/Replanting
3. Additions (Sometimes)

D. Monthly Or Longer Page 42
1. Maintenance/Repairs
2. Additions

E. System Catastrophes And Recovery Techniques Page 42
1. Water Loss Or Water Circulation Loss
2. Air Supply Loss
3. Power Loss

IV. Vegetables Page 43

A. Plant Selection
1. General Types, What Grows Well
2. Special Techniques Required
3. Not-So-Well and Why
4. Planting Trials Results Page 44
5. Introduction To the Tradition Native Hawaiian Healing Page 59
6. Climates' Effect on System Operation and How To Adapt To It Page 63

B. Sprouting And Planting Systems Page 66
1. Germination And Types Of Seeds
2. Conventional Sprouting On Greenhouse Tables
3. Sprouting In Aquaponics System Rafts
4. Sprouting Table System Using Aquaponics' Water
5. Planting Out
6. Raft Hole Spacing And Cycling Tricks

C. Harvesting and Processing Tips And Tricks Page 69
1. Cut-And-Come-Again
2. Remove And Leave Whole
3. Pick Vegetables/Remove Unwanted Growth
4. Controlling Vegetable Pests Page 69

V. Fish And Aquatic Species Page 83
A. Aquatic Species In Our Systems
1. Tilapia *tilapia*sp.
2. Chinese Catfish *Clarius fuscus*
3. Giant River Prawn, Wild Prawn
4. Mosquito Fish
5. Water Fleas/*Gammarus*

B. Temperature Ranges And Growth Page 89
1. The Relationship Between Feeding, Growth, and Temperature
2. Hotter Is Better For Fish
3. Cooler Is Better For Vegetables
4. What Is Your Ambient? Plan Your System And Species Accordingly
5. Fish Disease Problems

C. Stocking Fish Into Your System and Harvesting Page 90
1. Initial Stocking
2. Where Do You Get The Fish To Stock With?
3. What If You Don't Have A Hatchery Nearby?
4. Some Interesting Things We Noticed About Tilapia
5. Harvesting the Micro-System
6. State Extension Agents: Agriculture, Aquaculture, and State Fish Vet

VI. Operating Manual for Micro Aquaponics Systems Page 93

VII. Construction Manual for Micro Aquaponics Systems Page 98

VIII. Materials Lists for Micro Aquaponics Systems 64 and 128 Page 113

IX. Construction Drawings for Micro Aquaponics Systems Page 116
